APS-QST-IMIFRD	Rapid Deploy for One Identity Manager® Integrations Factory

LIMITATIONS AND OUT OF REACH

If the system, application, or device is not on the Quest compatibility list (available [here](#)), Adistec undertakes to make all commercially reasonable efforts (if they do not put the work plan and the scheduled deadlines at risk) to work on a workaround that allows its integration, but without ensuring or guaranteeing it. Adistec does not guarantee or guarantee the integration of applications with One Identity® Manager or their correct interoperability. Adistec does not guarantee or ensure that the use cases required by the user can be met regardless of whether a correct integration was achieved or not. This service is delivered under the modality of "Time and Materials". In case of not being able to fully or partially comply with the client's requirements regarding integrations and use cases, this situation does not generate any right to the client to claim for a total or partial refund of the invoiced amounts. If necessary to achieve a correct integration of an application generate a modification or patch for it, this is the responsibility of the client. Adistec does not make modifications of any kind to the client's applications under any circumstances.

**Terms and Conditions:** Our services are governed by the general terms and conditions specified on our website:

<https://www.adistec.com/es/business-units/professional-services>. By sending the purchase order for the contracting of the services indicated in this document, you are accepting the scope, as well as the general and particular terms and conditions that govern them.
