Service Detailed:

Mode: On-Line

Estimated Duration: Up to 40 Hours

Part Number:

<u>P/N</u>	<u>Description</u>
APS-VMW-HRZRD	VMware® Horizon Rapid Deploy

Limitations and clarifications:

APS will not perform the migration of user data or profiles either from their PCs, Servers or any other means, being responsible for the client to perform the migration of this information and the verification of the proper functioning of the VM once the migration is done. APS undertakes to make every effort to configure the applications under the Horizon platform, however, we can not guarantee the compatibility and / or functionality of these and it is assumed that the customer already performed the corresponding verifications. If the applications are incompatible, it is the responsibility of the customer to develop a solution to the possible incompatibility. The implementation of VMware vSphere, vCenter or any other component of the Hypervisor platform will not take place. Access through the WAN is not contemplated, only the deployment for access via LAN. Adistec does not ensure or guarantee that USB devices connected through the "USB Redirection" feature are detected or function properly. It is assumed that the customer performed the corresponding validations to ensure the compatibility of such devices. APS is not safe and guarantees the proper functioning of the printer, or print jobs. It is assumed that the printer to be mapped is compatible and has already been validated by the customer.
